June 2016 Newsletter

June on the Plain will see a steady level of armoured and light role training throughout the month culminating in Exercise WESSEX STORM. Locally based Tidworth and Bulford armoured, armoured infantry, artillery and mechanised infantry units will conduct low level collective training across the whole of the Plain which will include live firing on the Larkhill artillery ranges. 3 Commando Brigade will deploy their Viking Armoured Support Group to Salisbury Plain in the first two weeks of the month to complete low level training. The second week of June will see the Armoured and Armoured Infantry courses from the Land Warfare Centre conducting their initial tactical training on exercise COMBAT TEAM followed by their final exercise TEAM SPIRIT in the third week of June. Both exercises will use the Imber and Larkhill ranges. The last week of June will see the Field Training Unit training the Scots Dragoon Guards in their light cavalry role using the Army Weapons Effect Simulation system on Exercise WESSEX STORM.

NOTICE – BYLAW ENFORCEMENT UPDATE

The Wilts Police conducted a routine enforcement patrol over the weekend 7th & 8th May 2016 with the following results;

Saturday proved to be quite a successful day as a quad bike was seized from a male who had travelled from the west midlands with two other males, the male was reported for no licence, tax insurance, mot.

Various groups of off roaders, some legal but a large proportion appeared to be riding machines without plates and lights – these individuals were deterred from the training area. Sunday was much the same with lots of legal m/cyclist, 4x4 drivers spoken to and a group from Southampton who had just arrived moved off the plain as they only had motto crossers; these were sent away.

Use of Civilian Drones, UAVs and Model Aircrafts on SPTA.

SPTA airspace is heavily used by military aircraft and UAVs and no unauthorised use of its airspace is to take place under any circumstances. Over the last three months we have encountered unauthorised flying by a paramotorist in the area between Shrewton and Tilshead, an individual flying a hang-glider over the impact area in the centre of Salisbury Plain and an individual flying his/her UAV in the area between Tilshead and Warminster; all

three actions break the Salisbury Plain Military Byelaws 1981 and could have resulted in loss of life.

Every effort is being made to ensure that these occurrences are not repeated in the future.

NOISE MANAGEMENT

General. The MoD takes all complaints very seriously and do much to mitigate where possible. Most complaints from members of the public from around Salisbury Plain Training Area are concerning impulse noise generated from the detonation of the 155mm High Explosive shell, and gun noise from the AS90 artillery weapon system.

Noise Limits. All ranges have been directed to ensure that no impulse noise greater than 130dB is heard outside the range boundary in populated areas or on main routes.

Noise Prediction. Gunfire noise is predicted using the Gunfire Noise Analysis Tool (GNAT) and traces from the Met Office Noise Evaluation Tool (MONET) at Larkhill Met Office.

Noise Measurement. Range Operations monitors noise from both the guns and the impact area using fixed microphones linked to the Gunfire Noise Assessment Tool (GNAT) computer in Westdown Camp and staff may deploy with hand-held noise monitors.

Countering Excessive Noise. In the event that the 130dB limit could be exceeded, Range Operations have a number of control measures that can be activated to ensure the requirement is adhered to; including stopping firing.

Upcoming Major Exercises. During large exercises, access may be restricted on Larkhill Ranges and in the Chitterne – Shrewton – Tilshead Triangle north of the B390.
